GUEST SPEAKERS:

Heidi Crockett, MSW, has seven years work experience in hospital case management and graduated with her Masters degree in Social Work from the University of Georgia. Currently, she is a Geriatric Care Manager with Aging Care Advocates. In this capacity, she advocates for seniors with an emphasis on wellness and healthy aging. She is finishing a 13 weekend, post-graduate, sexual health certificate through the University of Michigan and frequently lectures on older adults and sexual health issues. Heidi has personal experience caretaking a loved one through the dementia process and has facilitated multiple grief and dementia groups in the past.

David Bernstein, MD is a highly respected physician who is board certified in both Internal Medicine and Geriatrics practicing in Clearwater, Florida. His 30+ years of experience have provided him with opportunities to observe and empathize with thousands of adults as they age. His compassion and ability to see the souls of his patients has compelled him to share his stories in his book "I've Got Some Good News and Some Bad News: You're Old" He is a graduate of Albany Medical College and is an associate clinical professor in the department of medicine at the University Of South Florida College Of Medicine. Dr. Bernstein enjoys helping families face the complex problems as they near the end of life.
